CONNECT WITH ME

About Me

I'm a Computer Science student and Full Stack JavaScript Developer with experience in both Angular and React for frontend development, and Node.js with MongoDB on the backend. I focus on building scalable, maintainable, and modern web applications with clean architecture and strong performance.

Problem Solver

I break down complex problems into elegant, efficient solutions.

Fast Learner

I stay updated with the latest technologies and best practices.

Team Player

I collaborate effectively and communicate clearly with teams.

Education & Learning

OCT 2022 - JUN 2026 (EXPECTED)

Bachelor of Science in Computer Science

Faculty of Science, Computer Science Department

Studying core computer science subjects including data structures, algorithms, operating systems, and software engineering, with a strong focus on web development and modern JavaScript technologies.

AUG 17, 2025 - SEP 14, 2025

React.js Intensive Training (120 Hours)

Professional Training Program

Completed 120 hours of hands-on training covering React fundamentals, hooks, state management, component architecture, and building real-world responsive applications.

JAN 5, 2026 - MAY 1, 2026

MEAN Stack Diploma (210 Hours)

Professional Training Program

Completed 210 hours of technical and freelancing training (180 technical + 30 freelancing hours). Gained practical experience in MongoDB, Express.js, Angular, and Node.js, building scalable full-stack applications.

Featured Projects

Showcasing my latest works and technical expertise

Built a complete e-commerce solution using MEAN stack with secure authentication, Stripe payment integration, and an intuitive admin panel for managing products and orders.

E-Commerce Platform

A full-featured e-commerce platform with product catalog, shopping cart, order management, and payment integration. Features user authentication, admin dashboard, and real-time inventory tracking.
